SE760 External Solid State Drive

The SE760 external SSD combines elegant aesthetics with high-speed performance. What's more, the SSD sports a clean, streamlined design characterized by a sturdy metal shell with a clean hairline-brushed surface. Using the USB 3.2 Gen 2 interface the SE760 delivers read speeds of up to 1000 MB/s.

Speedy Performance

With USB 3.2 Gen 2, the SE760 sports read speed of up to 1,000 MB/s, which is up 12.5 times faster than an external hard drive. It'll only take you 10 seconds to transfer a 10GB 4K movie. Now that's fast.

USB-C - It's Always the Right Way

Thankfully the SE760 sports a USB-C (Type C) connector, which is reversible. There's no annoying up or down like with traditional USB. No guessing, plug in the first time. Every time!

Beautifully Crafted

The SE760 features a beautiful metal shell with an understated hairline-brushed that looks and feels exquisite.
